## Universal Contractor Grade Roll #S-UNI-ROL-DIM-06 - 30" x 150', 1 roll/package

Part of making smart spill decisions is not buying more absorbent than you need. Not every job requires long-term durability or heavy-duty strength. Sometimes you need an absorbent that will let you get in, do the job, and get out.

- Universal absorbency — used for both oil-and water-based liquids
- Perforations allow you to use only what you need
- Dimples add fast-wicking power
- Quickly absorbs leaks, spills and overspray to keep floors dry
- Perfect for light-duty industrial, maintenance and general applications
- Rolls are great for covering large surface areas
- HighLoft construction is sturdy and soft
